Projects

QuickK Cart E-commerce Web App

Mar 2025 - Apr 2025

Fullstack development (Next js + MongoDB)

[Github](#) | [Live](#)

- Developed **Quick Cart**, a full-stack e-commerce app using **Next.js 15** with dynamic product listing, filtering, cart, and checkout features
- Integrated **Clerk** for authentication and **Stripe** for secure payment processing product filtering, detailed admin panel
- Enabled **Cloudinary-based image upload** and built **Inngest background workflows** for async operations like order handling
- Designed a responsive, modern UI with **Tailwind CSS v4**, focusing on performance, scalability, and user experience

Estate Flow – Real Estate Listing Platform

Apr - 2025

Fullstack development (Next js + MongoDB)

[Github](#) | [Live](#)

- Developed a full-stack real estate app using **Next.js 15**, allowing users to list and browse properties (houses, buildings, plots)
- Implemented dynamic **search and filter** features for an optimized property discovery experience
- Integrated **Clerk** for secure authentication and **Inngest** for background event workflows
- Enabled efficient **image uploads via Cloudinary** and managed data with **MongoDB (Mongoose)**
- Designed a responsive, modern UI using **Tailwind CSS**, focused on performance and mobile usability

M Style E-commerce Web App

Front-end and Back-end Development

[Github](#)

- A fully functional responsive e-commerce platform for men's apparel built using **Node.js**, **Express**, **MongoDB**, **HBS**, **CSS**, and **Bootstrap**.
- Implemented all the necessary e-commerce functionalities like product listing, cart, orders, online payment, product filtering, detailed admin panel with charts, graphs, etc
- Integrated Payment Gateway with **Razorpay**
- Technologies used: **Node.js** | **Express.js** | **CSS** | **Axios** | **Bootstrap** | **MVC** | **React.js** | **Session** | **Mongoose** | **Multer** | **Git**

Education

- Completed a **MERN Stack Web Development Course** as a Software Trainee, covering **OOP**, **DSA**, **Databases**, **HTML**, **CSS**, **JavaScript**, **Node.js**, **Express**, **Handlebars**, and **Competitive Programming** through hands-on projects
