  Diploma(Computer Science Engineering)
  2016-2019

- **A.V.M Inter College**
  High School
  Completed in 2016

Achievements

Feb-2023   *Employee Of The Month*

About Me

Attention to detail and self-motivated Full-Stack Web Developer with 2 years of hands-on experience in creating, developing, and managing scalable web applications. Expertise in recent technologies such as React.js, Node.js, MongoDB, JavaScript (ES6+), HTML5, CSS3, and RESTful APIs. Proficient in front-end development with React and back-end services with Express.js and Node.js. Expertise in designing responsive, mobile-first applications with high performance, clean code, and user-oriented design. Skilled in version control (Git), agile practices, and cross-functional teamwork. Enthusiastic about producing high-quality software and continually refining development processes.

Professional Experience

Brillica Services Pvt.Ltd | Full Stack Web Developer Associate
2023 - Present

With the experience of being a web developer, I possess strong skills in developing responsive web applications using a skill set comprising HTML5, CSS3, and JavaScript. My expertise further lies in server-side development, where I make use of Node.js to develop strong APIs and manage server-side logic efficiently. Additionally, I am skilled in creating intuitive user interfaces using client-side logic, taking advantage of the strength of React.js to develop interactive and user-friendly experiences. In achieving data security and efficiency, I create database schema using MongoDB and MySQL, setting a strong basis for securely storing user data. With a great proficiency in the above technologies as well as solid knowledge of web development principles, I am capable of producing top-notch solutions satisfying both client expectations and industry demands.

PROJECTS

LMS (Learning Management System)
- URL: lmsbrillicaservices.com
- Stack: React.js · Node.js (Express) · MongoDB (Mongoose)
- Implemented role-based access control and real-time notifications via WebSockets.

WebAppFx (Web Development Agency Site)
- URL: webappfx.com
- Stack: React.js · Node.js (Express) · MongoDB (Mongoose)
- Developed dynamic routing and SEO-friendly server-side rendering.

Brillica Services Website
- URL: www.brillicaservices.com
- Stack: EJS · Node.js · MongoDB (Mongoose)
- Built the custom admin panel for content management.

Weather Application
- URL: github.io/rohitnegii/Weather-App
- Stack: HTML5 · CSS3 · Vanilla JavaScript
- Integrated OpenWeatherMap API; implemented error handling and local storage.

BookMyTutes – Teacher App & Partner App
- Stack: Node.js (Express) · React Native
- Developed REST API and mobile UIs; enabled real-time booking and push notifications.

MarketSpace360
- Stack: Node.js (Express) · Next.js · MongoDB
- Implemented server-side rendering, user authentication, and role-based dashboards.

Brillica Service Admin Panel
- URL: promise.brillicaservices.com/login
- Stack: React.js · Node.js (Express) · MongoDB
- Designed secure login, user management, and analytics dashboard.
